AN SQP PRESENTATION

A book with a little bite...

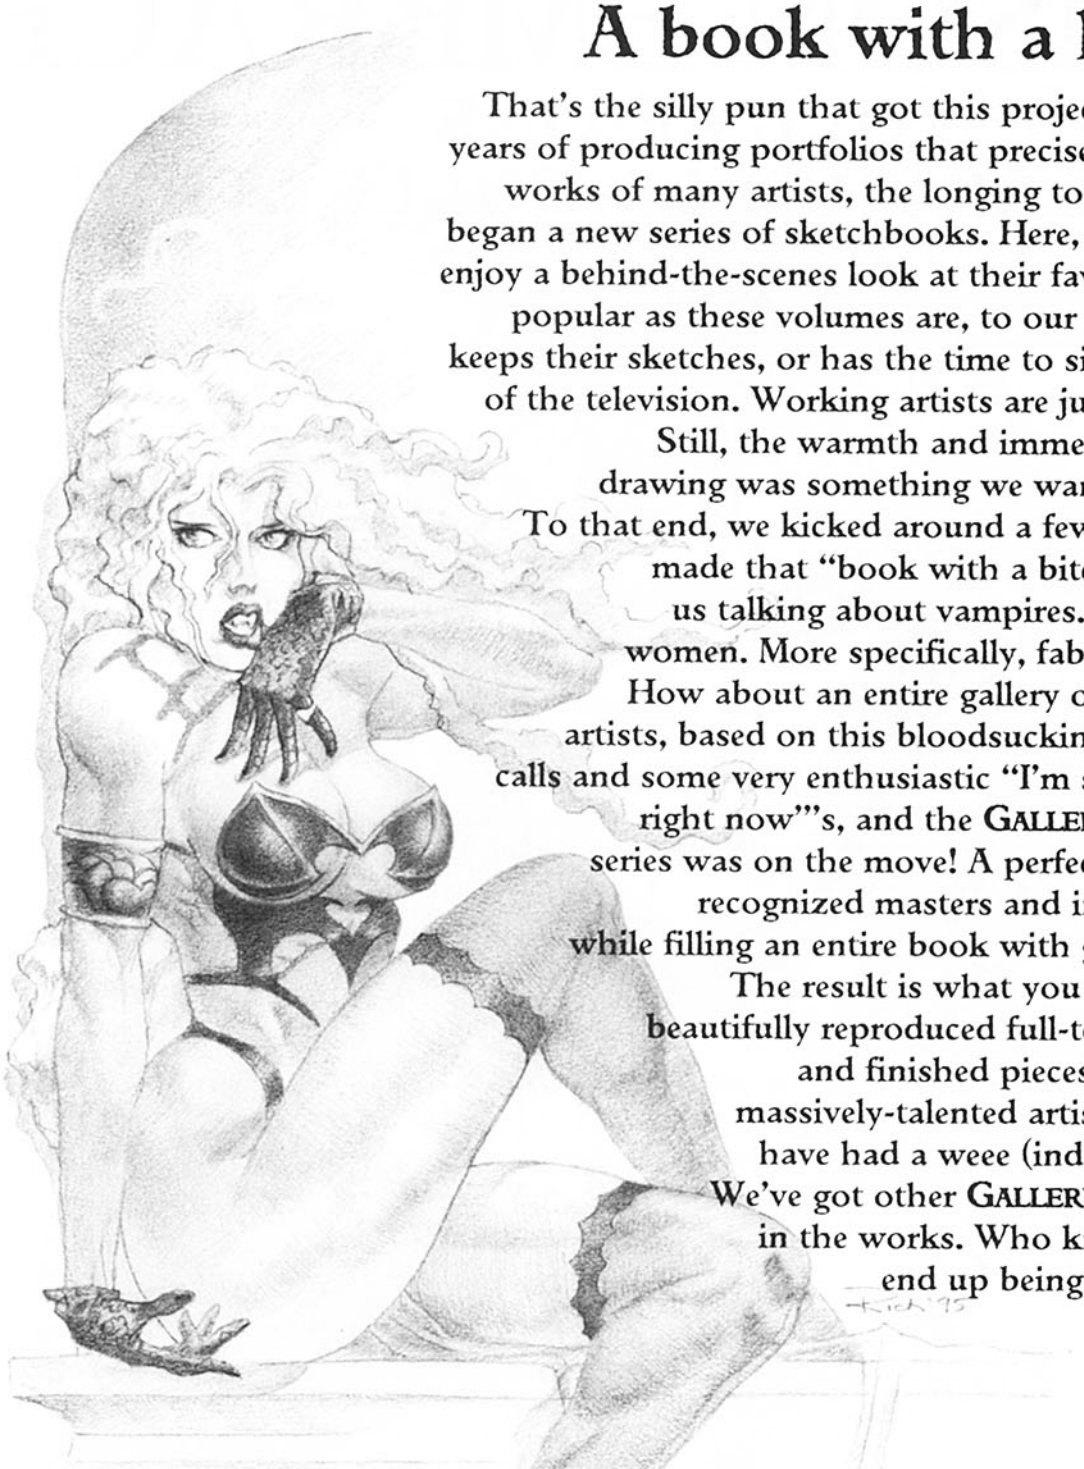

illustration by rich larson

That's the silly pun that got this project started. After many years of producing portfolios that precisely reflect the finished works of many artists, the longing to produce more books began a new series of sketchbooks. Here, fans could study and enjoy a behind-the-scenes look at their favorite illustrators. As popular as these volumes are, to our dismay, not everyone keeps their sketches, or has the time to sit and doodle in front of the television. Working artists are just that - WORKING! Still, the warmth and immediacy of the pencilled drawing was something we wanted to expand upon. To that end, we kicked around a few ideas until someone made that "book with a bite" remark, which got us talking about vampires. Specifically, vampire women. More specifically, fabulous vampire babes! How about an entire gallery of sketches by various artists, based on this bloodsucking idea!? A few phone calls and some very enthusiastic "I'm sharpening my pencil right now"'s, and the GALLERY GIRLS COLLECTION series was on the move! A perfect vehicle to show off recognized masters and introduce new talents, while filling an entire book with glorious illustrations! The result is what you hold in your hands - beautifully reproduced full-tone studies, sketches, and finished pieces by an assemblage of massively-talented artists who all profess to have had a weee (industry term) of a time! We've got other GALLERY GIRLS COLLECTIONS in the works. Who knows, this series may end up being a whole new shelf in your art library!

Enjoy!
